**WOL 3D Secures Export Order worth USD 390,000 for
Concrete 3D Printer & Robotic Arm to the USA**

WOL3D, a pioneering company in additive manufacturing and industrial automation, is pleased to announce that it has secured an export order for a **Concrete (Cement) 3D Printer and Robotic Arm** to an International Client in the USA.

This order, valued at USD 3,90,000, is part of a strategic partnership agreement with TVASTA Manufacturing Solutions PVT. The cutting-edge technologies are developed by TVASTA and WOL3D is playing a pivotal role as a key distributor and facilitator, bringing these advanced construction solutions to the global market.

This order marks a significant milestone in the company's global expansion strategy and reinforces its commitment to innovation in the construction technology sector by offering state-of-the-art solutions tailored to the industry's evolving needs. Successfully executing of this order will open further opportunities in global markets and enhance the company's reputation as a leader in industrial automation and 3D printing solutions provider.

Export Order				
Sr. No	Item	PO Amount	PO Month	Tentative PO Delivery
1	1. Robotic arm based concrete 3D printer SIRA RC20, 2. Hopper & Nozzle System w/3 Nozzle sizes 3. Software: Tvasta Digital construction OS perpetual License.	\$ 2,80,000	FEB 2025	NOV 2025
2	1. Robotic arm based concrete 3D printer SIRA RP18, 2. Hopper & Nozzle System w/3 Nozzle sizes 3. Software: Tvasta Digital construction OS perpetual License.	\$ 1,10,000	FEB 2025	NOV 2025
TOTAL		\$ 3,90,000		

Rahul Chandalia, MD and CEO of WOL3D, spoke about this achievement: *"This order reflects our ongoing commitment to driving automation across industries, whether through the development of in-house technology solutions or by leveraging strategic partnerships. Our goal is to deliver cutting-edge solutions that address the growing global demand for efficiency and sustainability. We are confident that the Cement 3D Printing and Robotic Arm technologies will play a pivotal role in advancing more sustainable, precise, and cost-effective building practices. The order from the international client in the USA highlights the increasing recognition and need for innovative construction solutions. At WOL3D, we are dedicated to shaping the future of industrial automation by offering diverse products and solutions that optimize operational efficiencies across various sectors."*

About TVASTA

TVASTA is a pioneering company specializing in 3D printing technology for the construction industry. Their innovative approach automates the construction process by building structures layer by layer, significantly reducing project completion times compared to traditional methods. This process, often called "digitized construction," is considered a development of the Industry 4.0 era. In 2021, TVASTA was honoured as a winner at the National Startup Awards, recognizing their innovative contributions to the construction industry.

About WOL3D

WOL3D is a pioneer in the Indian 3D printing industry, committed to bridging the gap between ideation and manufacturing. It is based in Mumbai, India. Renowned as a leading manufacturer and distributor of premium-quality 3D printers and filaments, the company combines cutting-edge technology with user-friendly solutions to redefine prototyping and manufacturing.

WOL3D is a certified ISO, CE, and RoHS company, adhering to rigorous international standards. Also, the official master distributor for global leaders such as Creality, Bambulab, Elegoo, Phrozen, and Flashforge. Additionally, it collaborates with international OEMs to create exclusive product lines under its own brands, including Pixel, I-Tech, Gen X, and the Hi Smart Series.
